Danish Socialists Demand Republic Owing to Plebiscite Result in Schleswig

COPENHAGEN, March 30 (Tuesday).-Large crowds fill public squares throughout the city, demanding the establishment of a Danish republic, following the dissolution of the Zahle Cabinet by the King. All the streets leading to the royal palace are held by police. King Christian to-night received a Socialist deputation with which he conversed for half an hour. Demands were submitted, and the King promised a definite reply at 9:30 o'clock this morning. The nature of the demands was not made public.

The King demanded the resignation of the Cabinet because of differences which had arisen concerning the plebiscite in the Flensburg region [second Schleswig zone, where the Germans won] and called the Liberal leader, M. Neegaard, to form a Cabinet.

The crisis turns upon the disposition of the second Schleswig zone. The Zahle Ministry considered this question, settled in favor of Germany, by the recent plebiscite. There has been a strong agitation among the opposition parties in favor of at least the provisional internationalization of Flensburg and the second Schleswig zone. These parties point out that the Zahle Ministry lacked a mandate to direct the country's policies in this matter.

A despatch to the Berlingske Tidende from Flensburg, says that deputation of citizens has presented a petition, signed by 18,000 Flensburgers, to the international commission, protesting against being surrendered to "Prussian hatred, vengeance and persecution."
